I have lived in the lovely village of Brixton and the local area for the whole of my life. Now I am settled in this village with my family - wife and children. My children attended the local nursery and primary school before going off to secondary.

I own and run a small family business - Pips Pick Your Own Fruit and Veg Farm - on the border of Brixton and neighbouring village Yealmpton. You will often see me on the tractor in my fields or walking the dog around our local beauty spots.

I have always enjoyed working outdoors on the land and providing a service for the local communities that come to visit. In my nature, I am a very practical person with a no-nonsense drive to get things done.

I want to ensure that we get the very best for our lovely little village, whilst still keeping the all important village feel and preserving the beautiful environment that is so important to the parishioners.

Being a parish councillor will enable me to work within a well-established team, for the good of a village, that I am passionate about.
